course fees

There are no specific course fees for the ARCHITECTURE LAB for the spring semester. Expenses can vary greatly, from student to student, depending on how much each is investing on printing boards and making models.

course objective

The ARCHITECTURE LAB fosters an interdisciplinary approach to research in architecture and aims at promoting critical thinking on the disciplines and activities that shape our environment. A combination of informative lectures by the instructors, field trips and personal research and readings will support the development of studio projects that will exhibit a creative approach, conceptual precision and aesthetic sophistication.

course description

The Spring Semester for the ARCHITECTURE LAB at CSU Florence takes advantage of the students' design experiences in the Fall Semester, when they dealt with the urban structure of the city of Florence, its stratifications, its history, its urban complexity. The students will be led to further ripen their point of view and their abilities, and will therefore be asked to develop a much larger design assignment which

involves an urban area located close to Florence international airport: a quite contradictory and complex context to work in.

Theme for the spring studio project is: a mixed-use development in viale Belfiore, in Florence. The students will be asked to develop their project in small groups (3 students per group). They will conclude their assignment at the end of April.

Lectures by the professors and by invited guests, as well as readings on various themes related to the project topics, will be addressed to generate a common cultural ground and reinforce the multidisciplinary approach of this course. Also, a lecture series organized by Kent State University and one organized by Syracuse University in Florence will greatly enrich the students' knowledge on the debate in contemporary architecture.

assignments

In the Spring Semester students will work on the area of viale Belfiore in Florence.

workshops (tentative)

In the Spring Semester we are planning to hold 2 workshops for CSU-FI students to experience collaborations with Italian students.

- One workshop (mandatory) will be run with the School of Architecture, Università di Genova. It will take place in Florence, at CSU-FI, and is scheduled from Monday February 27 to Thursday March 2. The workshop will provide an important occasion for CSU students in terms of knowledge exchange.
- Another workshop (mandatory) will be run with the Faculty of Architecture in Ascoli Piceno. It is scheduled from Monday May 8 to Friday May 12. Titled "Coast2Coast", this workshop, originally conceived by Cristiano Toraldo di Francia, is now in its 14th edition.

attendance policy

Attendance to all CSU architecture courses is mandatory. Two unexcused absences are allowed during the semester but more than two unexcused absences will lower your grade as follows (excused absences will be accepted for serious medical reasons or emergencies): **3** unexcused absences, lowers one letter grade; **4** unexcused absences, lowers two letter grades; **5** unexcused absences, lowers 3 letter grades. **More than five unexcused absences will result in failure of the course.**

In order not to disrupt the class, punctuality is required. Students are expected to be in class at the beginning of the class hour; any delay exceeding 30 minutes will be considered an absence.

Dates of mid-term and final crits **can not** be changed for individual travel plans or personal needs. Students should take note of the dates and hours of the midterm and final crits and plan their trips after the last crit. It is important to inform friends and relatives about these crit dates so that no tickets are purchased for you that will interfere with these crit dates. Missing the midterm or the final crit will mean failure of the course.

During the academic year photocopies and other material may be distributed in class by the instructors. Students who were not in class are responsible for getting the material from their classmates and making their own photocopies.

grading policy

Evaluation is based on daily work in studio, presentations, and quality and completeness of assignments. Grades are given by the instructors. The final course grade will be determined as indicated below:

- Studio project evaluation: 50%
- Coast2Coast workshop in Ascoli: 10%
- CSUFI - UNIGE workshop: 15%
- 50th anniversary celebrations exhibition set-up: 10%
- ex-tempore assignment: 5%
- Submitted portfolio (due Wednesday May 24, 2017): 10%
