# Medical Services During your stay in Florence

# International Health Florence

International Health Florence was created to assist the **International** community, **students abroad** and **tourists** by offering a wide range of healthcare and hospitality services to fully meet the expectations of all international patients.

Dealing with a medical issue can be a stressful experience, and we want to help alleviate that stress in any way we can

Let us take care of you,  
you'll feel at home!
